GOING GREEN WITH CENTURY

Century Hardware, in partnership with our dedicated vendor sponsors, is proud to offer a full line of “green” cleaning products.

Geared towards the needs of NYC residential property owners and managers, Century’s vast inventory and local footprint ensures we can supply your needs in the most efficient and cost-effective manner.

When you hear the terms “green” or “sustainable” mentioned, the products being referenced have been proven to leave a positive impact on the environment.

Products earn this certification in different ways but in most cases “green” cleaning means:

- The product does not contain highly toxic compounds
- The product is biodegradable
